

# Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 20 Jan 2016

## Dec 2015 Inflation Rate 0.9%

### Headline Inflation: Year-on-Year Changes for Dec 2015 compared to Dec 2014

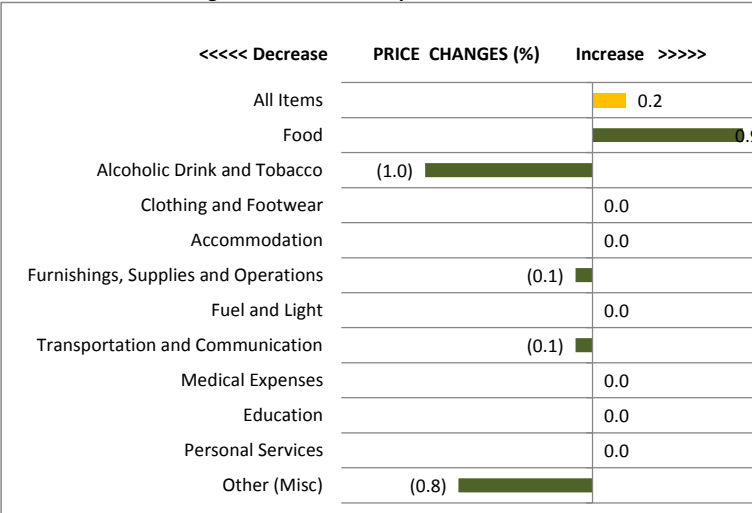

The Consumer Price Index for December 2015 increased by 0.9% over the twelve month period.

The indexes for Food and All Items Less Food and Energy both increased over the period. The Food Index increased by 2.7% over the twelve month period. Two Food sub-groups are the main factors influencing the increase in the Food Index. The Fruits and Vegetables Index increased by 10.1% with the Vegetables Index increasing by 15.9%. The Food Not Elsewhere Specified (Food N.E.S) Index increased by 4.2%. The index for Miscellaneous Foods rose 6.5%. Contrast to these increases, the Meats Index has declined 1.0% resulting from decreases in the Pork and Poultry sub categories.

The All Items Less Food and Energy Index remained unchanged from the November 2015 rate of 2.1%. The indexes for Personal Services, Furnishings, Supplies and Operations, Medical Expenses and Clothing and Footwear are the indexes that have increased over the past year.

The Fuel and Light index declined by 12.2% over the period December 2014 to December 2015. The index remained unchanged from the November 2015. The fuel variation rate declined from 74 cents to 60 cents over the 12 month span. This decline contributed to the 11.6% decrease in the Energy index and a 12.3 % decline in the Electricity Index.

### Month-to-Month Changes for Dec 2015 compared to Nov 2015

The Food Index increased 0.2% in December. Increases in five Food sub groups indexes contributed to this increase. The Index for Dairy Products increased by 3.2%, Fruits and Vegetables rose 2.3%, Meats increased by 0.8% and The Food Not Elsewhere Specified (Food N.E.S) increased by 0.7% over the one month period.

Contrary to those increases above, The Index for Bakery and Cereal Products declined by 1.4%.

The Fuel and Light Index remain unchanged as there was no change in the Fuel and Light category from November 2015 to December 2015. The fuel variation rate remained at 60 cents for both periods. The fuel variation rate has remained unchanged since February 2015.

The Index for All Items less Food and Energy declined 0.1%. Resulting from declines in the index for Alcoholic Drink and Tobacco and the indexes for Services, Household Operations and Goods Transport Services (Airlines fares) were the contributors to this decrease.

**Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket**

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
<b>Total number of goods and services in the basket</b>	<b>442</b>	<b>Prices are collected from the second Monday to the second Thursday of every month</b>	

<sup>1</sup> Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

### What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

### What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

### What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

### What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

### Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

<b>Year-on-Year Inflation</b>	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
<b>Month-to-Month Price Changes</b>	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
<b>Annualised Inflation Rate</b>	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

All Items LESS Energy		134.88	134.62	131.95	2.2	0.2
All Items less Food and Energy		127.26	127.35	124.70	2.1	(0.1)

**Table 3: Distribution of Changes in the Inflation Rate**

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
<b>Dec 2015 compared to Dec 2014</b>				
Main Expenditure Level	11	4	7	0
Sub Group Level	26	8	17	1
Section Level	30	8	21	1
<b>Nov 2015 compared to Nov 2014</b>				
Main Expenditure Category Level	11	3	8	0
Sub Group Level	26	6	19	1
Section Level	30	8	21	1
<b>Oct 2015 compared to Oct 2014</b>				
Main Expenditure Category Level	11	3	8	0
Sub Group Level	26	6	19	1
Section Level	30	7	22	1
<b>Dec 2015 compared to Nov 2015</b>				
Main Expenditure Category Level	11	4	1	6
Sub Group Level	26	7	7	12
Section Level	30	4	16	10

**Table 3 outlines the distribution of price movements for four inflation periods:**

- Dec 2015 compared to Dec 2014
- Nov 2015 compared to Nov 2014
- Oct 2015 compared to Oct 2014
- Dec 2015 compared to Nov 2015

In Dec 2015 compared to Dec 2014, 4 of the 11 main expenditure categories recorded price decreases, while 7 recorded price increases. 17 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 0 of the 11 main expenditure categories recorded no price changes.

**Graphical Analysis of the Consumer Price Index**

**Featured Expenditure Category**

Energy includes: Fuel & Light (Electricity ; LPG/Cooking Gas) Gasoline at the pump
