

Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 9 May 2017

Feb 2017 Inflation Rate 1.9%

Headline Inflation: Year-on-Year Changes for Feb 2017 compared to Feb 2016

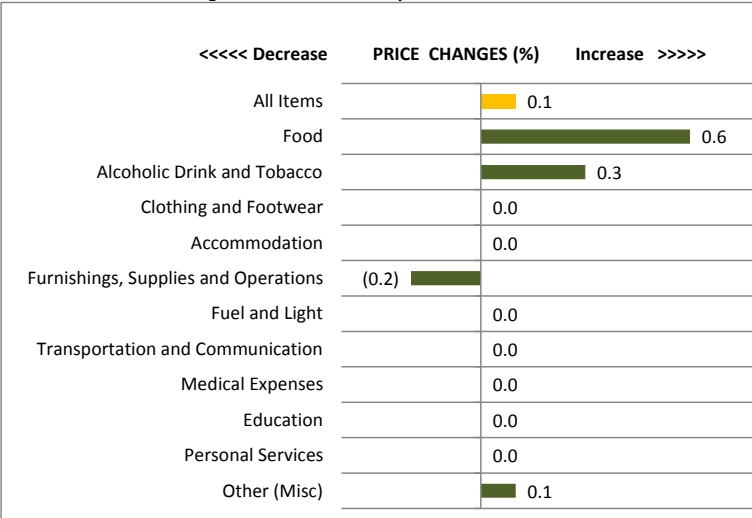

In February 2017, the annual rate for Consumer Prices increased 1.9% a larger increase than the 1.5% rise for the period ending January 2017. The Food Index rose 1.0%, the largest twelve month increase since April 2016. The Food Index increased as 6 of 9 food groups indexes rose. The Index for Food Not Elsewhere Specified (Food N.E.S) increased 7.1% with the Index for Meals Out (Meals Away from Home) rising 11.8%. The Index for Dairy Products increased 2.4%, a slight increase over the January 2017 index of 1.5%. The Index for Sugar, Jams and Confectionery rose 1.7%.

In contrast to these increases, the Index for Meats fell 1.2% as the Index for Poultry fell 11.2%. This was attributed to the decline of the average prices for chicken wings, chicken breast and whole chicken. The Index for Non-Alcoholic Beverages declined by 2.1% resulting from decreases in the average prices of carbonated sodas, water and drinks mix.

The Energy Index has remained unchanged at 1.9%. The Indexes for Gasoline at the Pump, Electricity and Cooking Gas were unchanged.

The All Items Less Food and Energy Index rose 2.4% over the past twelve months. The Index for Personal Effects increased by 4.0%. The Index for Alcoholic Drink and Tobacco rose 1.1%. The Accommodation Index remains unchanged at 4.6% after introducing a new rental index in January 2017.

Month-to-Month Changes for Feb 2017 compared to Jan 2017

The Consumer Price Index increased 0.1% for the month ending February 2017.

The Food Index increased by 0.6% as five of the nine major food groups indexes increased. The Indexes for Fruits and Vegetables, Hot Beverages, Meats, Bakery and Cereal and Sugar, Jams Confectionery rose over the one month span. The Index for Fruits and Vegetables increase 2.7% with the Index for Vegetables increasing 7.7%. The Index for Hot Beverages rose 1.7% after a 0.2% increase in January. The Meats Index rose 0.6% and the Index for Bakery and Cereal Products increased by 0.4%.

The Index for Alcoholic Drink and Tobacco rose 0.3%. The Index for Tobacco increased 1.2% after been unchanged in January. The Alcoholic Beverages Index increased by 0.2 over the same period.

The Index for Other (Miscellaneous) slightly increased by 0.1% in February.

In contrast to the increases, the Index for Furnishings, Supplies and Operations declined by 0.2% after rising in January. The Services, Household Operations and Goods Index decreased by 0.4%.

Chart 1: Change in Index Contribution for Feb 2017 Inflation

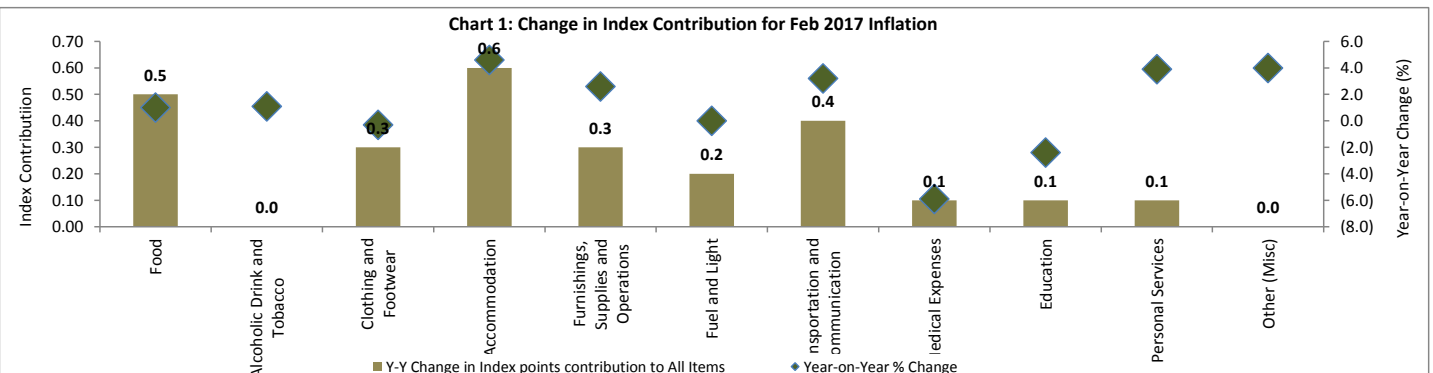

Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
Total number of goods and services in the basket	442	Prices are collected from the second Monday to the second Thursday of every month	

¹ Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

Year-on-Year Inflation	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
Month-to-Month Price Changes	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
Annualised Inflation Rate	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

	All Items LESS Energy	136.98	136.79	134.24	2.0	0.1
	All Items less Food and Energy	129.95	130.00	126.87	2.4	-

Table 3: Distribution of Changes in the Inflation Rate

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
Feb 2017 compared to Feb 2016				
Main Expenditure Level	11	3	7	1
Sub Group Level	26	8	18	0
Section Level	30	13	17	0
Jan 2017 compared to Jan 2016				
Main Expenditure Category Level	11	4	6	1
Sub Group Level	26	7	19	0
Section Level	30	12	18	0
Dec 2016 compared to Dec 2015				
Main Expenditure Category Level	11	6	4	1
Sub Group Level	26	14	12	0
Section Level	30	16	14	0
Feb 2017 compared to Jan 2017				
Main Expenditure Category Level	11	1	3	7
Sub Group Level	26	4	8	14
Section Level	30	9	13	8

Table 3 outlines the distribution of price movements for four inflation periods:

Feb 2017 compared to Feb 2016
 Jan 2017 compared to Jan 2016
 Dec 2016 compared to Dec 2015
 Feb 2017 compared to Jan 2017

In Feb 2017 compared to Feb 2016, 3 of the 11 main expenditure categories recorded price decreases, while 7 recorded price increases. 18 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 1 of the 11 main expenditure categories recorded no price changes.
