

Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 21 Mar 2017

Jan 2017 Inflation Rate **1.5%**

Headline Inflation: Year-on-Year Changes for Jan 2017 compared to Jan 2016

In January 2017, the annual rate for Consumer Prices increased 1.5%. The Food Index rose 0.2% over the last twelve months. It was largely reflected by increases in the Indexes for Food Not Elsewhere Specified (Food N.E.S), Dairy Products and Bakery and Cereal Products. The Index for Bakery and Cereal Products increased 0.6%, its largest 12 month increase since May 2016. The Index for Food Not Elsewhere Specified (Food N.E.S) increased 8.2% as the Index for Meals Out rose 11.6%.

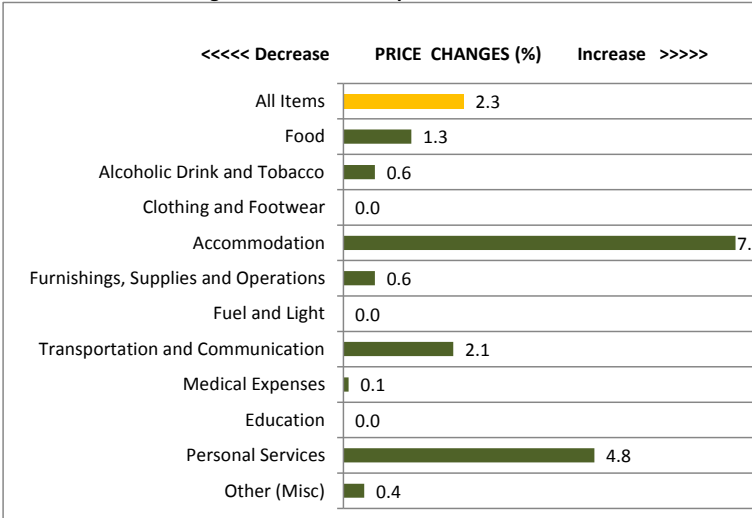

In contrast, the Index for Fruits and Vegetables declined 3.6% as the Index for Vegetables decreased 12.4%. The Index for Meats fell 2.7% resulting from a decline in the Poultry Index which fell 11.7%.

The Energy Index has remained unchanged at 1.9%. The indexes for Gasoline at the Pump, Electricity and Cooking Gas were unchanged.

The All Items Less Food and Energy Index rose 2.5% over the past twelve months. The Index for Accommodation increased 4.6% as the Index for Rents increased by 0.4% and the Index for Lawn Mowing Services increased by 9.3%. The Index for Transportation and Communication increased 2.2%.

A methodological review was done to the CPI to ensure the basket remains representative of household purchases and product availability. The rental Index was updated along with item specifications to reflect changes of sizes and varieties. The review was done in accordance with international guidelines and best practices in the compilation of CPI.

Month-to-Month Changes for Jan 2017 compared to Dec 2016

The Consumer Price Index increased 2.3% for the month ending January 2017. The January increase was impacted by the increases in the Indexes for Accommodation, Personal Services, Transportation and Communication and Food.

The Food Index increased by 1.3% with the Index for Food Not Elsewhere Specified (Food N.E.S) having the largest increase of 5.3%. Its sub index Meals Out Index rose 8.8% its largest increase since November 2008.

The Index for All Items Less Food and Energy increased 2.9% in January 2017. Most of the major components indexes increased in January. The Accommodation Index rose 7.5% resulting from increases in the Index for Rents and Lawn Mowing Services. The Index for Personal Services increased 4.8% after remaining unchanged in November and December. The index was affected by increases in the indexes for Barbering, Hair Dressing Services and Driving Lessons. The Index for Transportation and Communication increased by 2.1% with the indexes for Transportation Services and Repairs and Maintenance of Personal Transportation rising 0.1% and more.

Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
Total number of goods and services in the basket	442	Prices are collected from the second Monday to the second Thursday of every month	

¹ Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

$$\begin{aligned}
 &\text{Year-on-Year Inflation} = \frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100 \\
 &\text{Month-to-Month Price Changes} = \frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100 \\
 &\text{Annualised Inflation Rate} = \frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100
 \end{aligned}$$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

Personal Effects	1000.00	129.63	129.05	125.09	3.6	0.4
	All Items less Food	131.15	127.82	128.59	2.0	2.6
	All Items LESS Energy	136.79	133.47	134.31	1.8	2.5
	All Items less Food and Energy	130.00	126.29	126.84	2.5	2.9

Table 3: Distribution of Changes in the Inflation Rate

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
Jan 2017 compared to Jan 2016				
Main Expenditure Level	11	4	6	1
Sub Group Level	26	7	19	0
Section Level	30	12	18	0
Dec 2016 compared to Dec 2015				
Main Expenditure Category Level	11	6	4	1
Sub Group Level	26	14	12	0
Section Level	30	16	14	0
Nov 2016 compared to Nov 2015				
Main Expenditure Category Level	11	6	4	1
Sub Group Level	26	14	12	0
Section Level	30	15	15	0
Jan 2017 compared to Dec 2016				
Main Expenditure Category Level	11	0	8	3
Sub Group Level	26	3	19	4
Section Level	30	8	15	7

Table 3 outlines the distribution of price movements for four inflation periods:

Jan 2017 compared to Jan 2016
 Dec 2016 compared to Dec 2015
 Nov 2016 compared to Nov 2015
 Jan 2017 compared to Dec 2016

In Jan 2017 compared to Jan 2016, 4 of the 11 main expenditure categories recorded price decreases, while 6 recorded price increases. 19 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 1 of the 11 main expenditure categories recorded no price changes.
