

Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 7 Jul 2015

Jun 2015 Inflation Rate 0.6%

Headline Inflation: Year-on-Year Changes for Jun 2015 compared to Jun 2014

In June 2015, the Consumer Price Index increased by 0.6%.

The Food Index increase by 2.2% for the twelve month period ending June. Four of the eight major food groups increased over this span. The increase was led by Fruits and Vegetables, Meats, Food N.E.S and Dairy Products.

The Index for Fruits and Vegetables increased by 5.7%. The index for Fruits increased by 9.7% and the Index for Vegetables increased by 6.5%. Both indexes offset a decline in the Index for Starchy Foods.

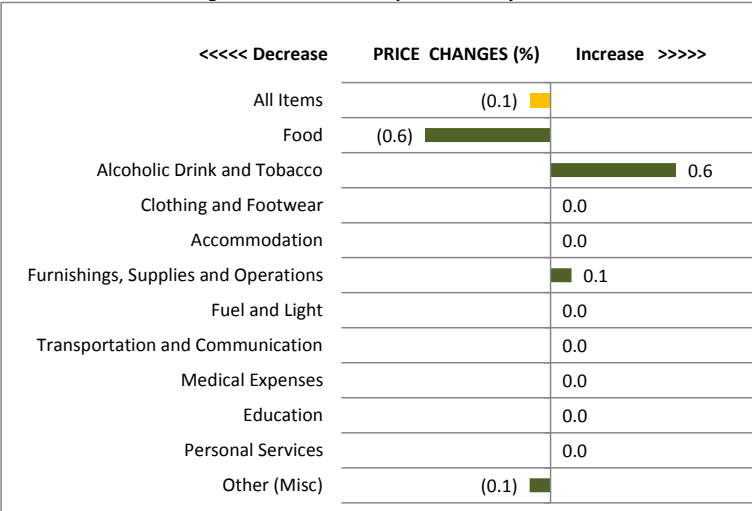

The Index for Meats increased by 4.8%. This increase was led by increases in the indexes for Mutton 15.7%, Preserved Meats 8.2% and Poultry 5.1%. The Index for Food N.E.S rose 3.2%, while the Index for Dairy Products recorded a 0.1% increase. The index for Non-Alcoholic Beverages also measured an increase of 1.2%.

In contrast to these increases, the Index for Bakery and Cereal Products declined 1.8%, so did the Index for Sugars, Jams and Confectionery which declined by 1.4%.

The Fuel and Light index declined by 17.2% over the period June 2014 to June 2015. The fuel variation rate declined from 81 cents to 60 cents over the 12 month span. This decline contributed to the 15.5% decrease in the Energy index.

When Food and Energy is removed from the All Item Index, the inflation rate is 2.5% indicating the effects of Food and Energy on inflation.

Month-to-Month Changes for Jun 2015 compared to May 2015

For the period of May to June 2015, the All Items index decreased by 0.1% in June. The index for the Food decreased by 0.6% over the one month span.

Six out of the eight major food groups declined over the one month period. The Index for Bakery and Cereal Products declined by 1.4%, Dairy Products fell by 1.1% and Meats decreased by 0.7%.

Similarly the Indexes for Fruits and Vegetables decreased by 0.3%, Sugar, Jams and Confectionery declined by 0.3% and Food N.E.S fell by 0.1%.

The Fuel and Light index remain unchanged as there was no change in the Fuel and Light category from May 2015 to June 2015. The fuel variation rate remained at 60 cents for both periods.

Alcoholic Drink and Tobacco Index increased over the same one month period. The Index rose 0.6% with Cigarettes contributing to the increase.

Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
Total number of goods and services in the basket	442	Prices are collected from the second Monday to the second Thursday of every month	

¹ Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

$$\begin{aligned}
 &\text{Year-on-Year Inflation} = \frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100 \\
 &\text{Month-to-Month Price Changes} = \frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100 \\
 &\text{Annualised Inflation Rate} = \frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100
 \end{aligned}$$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

	All Items LESS Energy	133.08	133.27	129.89	2.5	(0.1)
	All Items less Food and Energy	125.98	125.96	122.85	2.5	-

Table 3: Distribution of Changes in the Inflation Rate

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
Jun 2015 compared to Jun 2014				
Main Expenditure Level	11	4	7	0
Sub Group Level	26	7	18	1
Section Level	30	8	21	1
May 2015 compared to May 2014				
Main Expenditure Category Level	11	4	7	0
Sub Group Level	26	8	17	1
Section Level	30	10	19	1
Apr 2015 compared to Apr 2014				
Main Expenditure Category Level	11	4	7	0
Sub Group Level	26	8	17	1
Section Level	30	8	21	1
Jun 2015 compared to May 2015				
Main Expenditure Category Level	11	2	2	7
Sub Group Level	26	8	4	14
Section Level	30	10	9	11

Table 3 outlines the distribution of price movements for four inflation periods:

Jun 2015 compared to Jun 2014
 May 2015 compared to May 2014
 Apr 2015 compared to Apr 2014
 Jun 2015 compared to May 2015

In Jun 2015 compared to Jun 2014, 4 of the 11 main expenditure categories recorded price decreases, while 7 recorded price increases. 18 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 0 of the 11 main expenditure categories recorded no price changes.
