

# Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 11 Apr 2014

Mar 2014 Inflation Rate **0.7%**

## Headline Inflation: Year-on-Year Changes for Mar 2014 compared to Mar 2013

In March 2014, the annual rate of inflation was measured at 0.7%. Food prices increased by 1.1% over the twelve month period from March 2013 to March 2014. An increase of 0.5 percentage point compared to the previous month of 0.6%. Average price changes in three sub-categories contributed to this increase. Fruits and Vegetables 3.0%, Food N.E.S. (not else specified) 2.8% and Fats and Oil 2.0%.

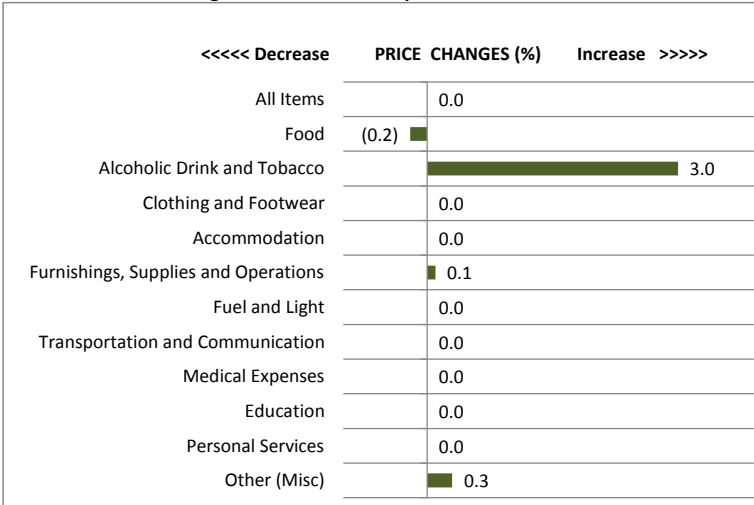

In the Fruits and Vegetables sub category, the price changes for Irish potatoes, canned vegetables and sweet peppers contributed to the increase in the index. Irish potato increased from \$2.33 to \$2.49 per pound, a can of mixed vegetables increased from \$3.46 to \$3.81 and sweet peppers increased from \$4.29 to \$5.91.

The Food N.E.S. sub category increased by 2.8%. This sub category has shown average price increases in the Meals Out and Miscellaneous Food N.E.S. sub categories since January. This is reflected in the increased average price of fried chicken with fries for Meals out. Miscellaneous Food increased 3.6%, which was influenced by the average price increase of soups and potato chips"

The Fuel and Light index increased by 1.7% over the same period due to an increase in the fuel variation rate from 75 cents in March 2013 to 77 cents in March 2014.

Alcoholic Drink and Tobacco increased by 3.6% over the same period. Whiskey increased from \$41.77 to \$43.48, imported liqueur increased from \$32.09 to \$34.13 and cigarettes increased from \$6.29 to \$6.81.

## Month-to-Month Changes for Mar 2014 compared to Feb 2014

There was no change in the All Item index between February and March 2014. The index for the Food category decreased by 0.2% between the this period.

Decreases were recorded for Fruits and Vegetables of 2.0%, Dairy Products 0.6% and Food N.E.S. 0.1%. The decrease in Fruits and Vegetables category was attributed to a 3.7% decrease in the Vegetables sub category. Decreases in average prices were recorded for pumpkin, carrots and tomatoes. The average price of pumpkins declined from \$3.75 to \$3.50 per pound, carrots \$3.28 to \$3.15 and tomatoes from \$4.54 to \$4.37.

In Dairy Products, decreases were recorded for a dozen eggs and ice cream. The average price of a dozen eggs declined from \$10.47 to \$10.12. Ice cream also influenced the reduction. The average price of imported ice cream reduced from \$28.00 to \$25.35.

Alcoholic Drink and Tobacco increased by 3.0% over the same period. Increases in prices for brandy, liquors and cigarettes contributed to this increase.

Chart 1: Change in Index Contribution for Mar 2014 Inflation

**Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket**

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
<b>Total number of goods and services in the basket</b>	<b>442</b>	<b>Prices are collected from the second Monday to the second Thursday of every month</b>	

<sup>1</sup> Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

### What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

### What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

### What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

### What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

### Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

<b>Year-on-Year Inflation</b>	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
<b>Month-to-Month Price Changes</b>	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
<b>Annualised Inflation Rate</b>	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

**Table 3: Distribution of Changes in the Inflation Rate**

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
<b>Mar 2014 compared to Mar 2013</b>				
Main Expenditure Level	11	3	7	1
Sub Group Level	26	10	15	1
Section Level	30	9	18	3
<b>Feb 2014 compared to Feb 2013</b>				
Main Expenditure Category Level	11	4	6	1
Sub Group Level	26	11	14	1
Section Level	30	7	20	3
<b>Jan 2014 compared to Jan 2013</b>				
Main Expenditure Category Level	11	4	6	1
Sub Group Level	26	9	16	1
Section Level	30	8	20	2
<b>Mar 2014 compared to Feb 2014</b>				
Main Expenditure Category Level	11	1	3	7
Sub Group Level	26	4	9	13
Section Level	30	10	9	11

**Table 3 outlines the distribution of price movements for four inflation periods:**

Mar 2014 compared to Mar 2013  
 Feb 2014 compared to Feb 2013  
 Jan 2014 compared to Jan 2013  
 Mar 2014 compared to Feb 2014

In Mar 2014 compared to Mar 2013, 3 of the 11 main expenditure categories recorded price decreases, while 7 recorded price increases. 15 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 1 of the 11 main expenditure categories recorded no price changes.
