

# Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 10 Dec 2014

**Nov 2014 Inflation Rate 1.1%**

## Headline Inflation: Year-on-Year Changes for Nov 2014 compared to Nov 2013

In November 2014, the Consumer Price Index increased by 1.1%.

Food prices rose by 0.1% over the twelve month period from November 2013 to November 2014.

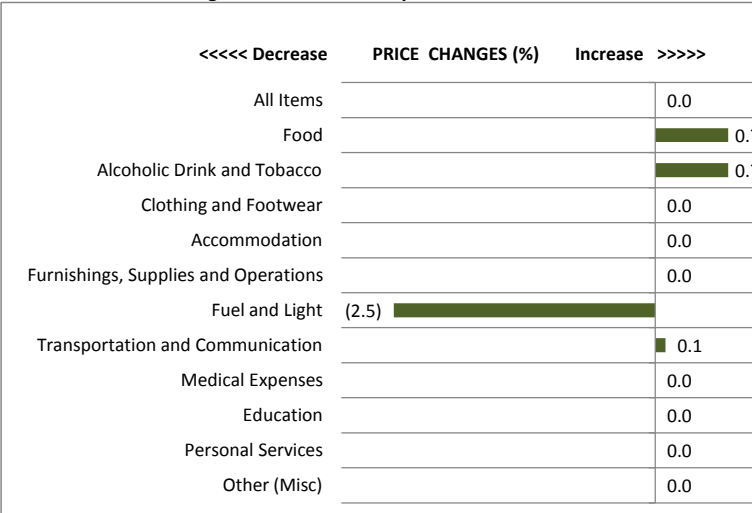

This slight rise in food prices was primarily due to an increase in the Dairy Products and Meats sub-categories. Dairy Products rose by 2.9% while Meats rose by 2.4%. The average price of a dozen eggs increased from \$9.93 to \$10.05, goat meat increased from \$14.22 to \$15.95 per lb and Pork from \$7.52 to \$8.53 per lb.

For the period there were also average price decreases in the Fruits and Vegetables and the Bakery and Cereal Products categories. Fruits and Vegetables decreased by 4.1% while Bakery and Cereal Products decreased by 2.6% over the twelve month period. The average price of broccoli decreased from \$11.50 to \$8.51, carrots from \$3.79 to 2.97 and frozen vegetables from \$14.88 to \$13.78 per lb. Within the Bakery and Cereal Products category the introduction of affordable brands of rice has led to decreases in the average price of rice.

For the period November 2013 to November 2014 the Fuel and Light category recorded a decrease of 3.4% due to a decline in the fuel variation rate from 78 to 74 cents.

When Food and Energy are removed from the All Items index, the inflation rate is 2.0%, indicating the overall effects of food items and energy products and services on inflation.

## Month-to-Month Changes for Nov 2014 compared to Oct 2014

For the month of October to November 2014 the All Items index recorded no change for the period. The index for the Food category increase by 0.7%.

This increase in the Food index is due to increases in the Meat sub-category which rose by 2.7% and marginal increases for Bakery and Cereal Products of 0.4% and Food N.E.S 0.3%. The average price of chicken thighs increased from \$3.82 to 4.41 per pound and turkey wings from \$5.10 to 5.95 per pound. The average price of 16oz pack of spaghetti increased from \$3.48 to \$3.58 and pack of sodabix crackers increased from \$1.43 to \$1.45. In the category Food N.E.S average price increases were recorded for ketchup and mix seasoning.

Alcoholic Drink and Tobacco increased by 0.7% over the same period.

There was also a decline of 2.5% in Fuel and Light index from October to November 2014 due to a reduction in the fuel variation rate from 0.77 to 0.74 cents.

Transportation and Communication index increased by 0.1% due to increase in the average cost transport services.

**Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket**

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
<b>Total number of goods and services in the basket</b>	<b>442</b>	<b>Prices are collected from the second Monday to the second Thursday of every month</b>	

<sup>1</sup> Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

### What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

### What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

### What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

### What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

### Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

<b>Year-on-Year Inflation</b>	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
<b>Month-to-Month Price Changes</b>	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
<b>Annualised Inflation Rate</b>	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

**Table 3: Distribution of Changes in the Inflation Rate**

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
<b>Nov 2014 compared to Nov 2013</b>				
Main Expenditure Level	11	1	9	1
Sub Group Level	26	7	17	2
Section Level	30	5	23	2
<b>Oct 2014 compared to Oct 2013</b>				
Main Expenditure Category Level	11	0	9	2
Sub Group Level	26	9	15	2
Section Level	30	8	20	2
<b>Sep 2014 compared to Sep 2013</b>				
Main Expenditure Category Level	11	1	8	2
Sub Group Level	26	7	19	0
Section Level	30	7	21	2
<b>Nov 2014 compared to Oct 2014</b>				
Main Expenditure Category Level	11	0	1	0
Sub Group Level	26	0	0	0
Section Level	30	0	0	0

**Table 3 outlines the distribution of price movements for four inflation periods:**

Nov 2014 compared to Nov 2013  
 Oct 2014 compared to Oct 2013  
 Sep 2014 compared to Sep 2013  
 Nov 2014 compared to Oct 2014

In Nov 2014 compared to Nov 2013, 1 of the 11 main expenditure categories recorded price decreases, while 9 recorded price increases. 17 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 1 of the 11 main expenditure categories recorded no price changes.

**Graphical Analysis of the Consumer Price Index**

**Featured Expenditure Category**

Energy includes: Fuel & Light (Electricity ; LPG/Cooking Gas) Gasoline at the pump
