

Antigua and Barbuda CONSUMER PRICE INDEX

Release date: 4 Dec 2015

Nov 2015 Inflation Rate **0.9%**

Headline Inflation: Year-on-Year Changes for Nov 2015 compared to Nov 2014

The Consumer Price Index for November 2015 increased by 0.9% over the twelve month period.

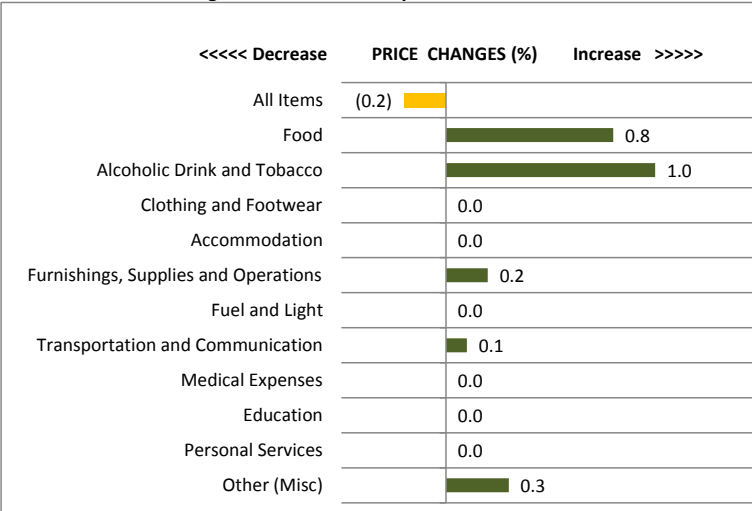

The indexes for Food and All Items Less Food and Energy both increased modestly over the period. The Food Index increased by 2.6% over the twelve month period. Three sub-food groups are the major factors influencing the increase in the Food Index. Fruits and vegetables Index has increased by 8.9% with the Vegetables Index increasing by 13.0%. The Food Not Elsewhere Specified (Food N.E.S) index increased by 4.4%. The index for Miscellaneous Foods rose 5.1%. Bakery and Cereal Products index increased 2.1%.

The All Items Less Food and Energy Index remained at 2.1% over the last twelve months; The indexes for Personal Services, Furnishings, Supplies and Operations and airline fares are among the indexes that have increased over the past year. The Index for Personal Services increased by 9.7%. Laundry services, manicure and men's hair cuts fees are among the services influencing this index.

The Furnishings, Supplies and Operations index rose 3.4% with the sub indexes for Furniture, Fixtures and Floor Covering and Household Appliances affecting this increase.

The Fuel and Light index declined by 12.2% over the period November 2014 to November 2015. The fuel variation rate declined from 74 cents to 60 cents over the 12 month span. This decline contributed to the 11.6% decrease in the Energy index. The Electricity Index declined by 12.3%.

Month-to-Month Changes for Nov 2015 compared to Oct 2015

The Food Index which increased 0.3% in October, rose 0.8% in November. Four food groups indexes contributed to this increase. The Index for Fruits and Vegetables rose 2.2%, Meats increased by 1.1%, Dairy Products 0.4% and Bakery and Cereal Products increased by 0.2% over the one month period.

Contrary to those increases above, two sub-groups recorded decreases. The Index for Sugars, Jams, Confectionery declined by 0.7% and The Food Not Elsewhere Specified (Food N.E.S) index declined by 0.2%.

The Fuel and Light index remain unchanged as there was no change in the Fuel and Light category from October 2015 to November 2015. The fuel variation rate remained at 60 cents for both periods.

The Index for All Items less Food and Energy rose 0.1%. Advances in the indexes for Alcoholic Beverages, Transport Services (Airlines fares), Personal effects and Services, Household Operations and Goods were the contributors to this increase.

Table 1: Examples of Goods and Services in the 2001-based Consumer Shopping Basket

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food	173	<i>Breakfast cereal, milk, coffee, juices, chicken, wine, vegetables, fruits, full-service meals, snacks</i>	Monthly
Alcoholic Drink and Tobacco	12	<i>Beer, stout, rum, whisky</i>	Monthly
Clothing and Footwear	65	<i>Men's pants, boys shorts, women's dresses, brassieres, underwear, infant's disposable diapers, watches, rings, bags</i>	Quarterly
Accommodation	10	<i>Rent paid, repairs and maintenance, property taxes, mortgage payments</i>	Quarterly
Furnishings, Supplies and Operations	74	<i>Sofas, mattress, kitchen cabinets, dressing table, rugs, linoleum, curtains, glassware; hourly wage rate</i>	Quarterly
Fuel and Light	2	<i>Electricity, LPG cooking gas</i>	Monthly
Transportation and Communication	27	<i>cellular phones, cars, license, gasoline, insurance, driving permit</i>	Quarterly
Medical Expenses	16	<i>doctor's bill, hospital care room rate, medicine</i>	Quarterly
Education	8	<i>Tuition fees, books, school supplies, exam fees</i>	Quarterly
Personal Services	10	<i>Hair cut, pedicure, manicure, driving lessons</i>	Quarterly
Other (Misc)	45	<i>Body lotion, toothpaste, shampoo, carnival costumes, gym membership</i>	Monthly, Quarterly
Total number of goods and services in the basket	442	Prices are collected from the second Monday to the second Thursday of every month	

¹ Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food, Alcoholic Drink & Tobacco, and some Other (Misc) items

What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a "shopping basket." In constructing this "shopping basket", the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2001.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2001 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

Year-on-Year Inflation	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
Month-to-Month Price Changes	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
Annualised Inflation Rate	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises. Price collection is authorised by the *General Statistics Act, No. 13 of 1975*.

Personal Care	1000.00	162.81	162.81	148.47	9.7	-
OTHER (MISCELLANEOUS):	17.90	124.74	124.40	124.23	0.4	0.3
Personal Effects	1000.00	124.74	124.40	124.23	0.4	0.3
	All Items less Food	129.05	129.81	128.58	0.4	(0.6)
	All Items LESS Energy	134.62	134.25	131.67	2.2	0.3
	All Items less Food and Energy	127.35	127.26	124.71	2.1	0.1

Table 3: Distribution of Changes in the Inflation Rate

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
Nov 2015 compared to Nov 2014				
Main Expenditure Level	11	3	8	0
Sub Group Level	26	6	19	1
Section Level	30	8	21	1
Oct 2015 compared to Oct 2014				
Main Expenditure Category Level	11	3	8	0
Sub Group Level	26	6	19	1
Section Level	30	7	22	1
Sep 2015 compared to Sep 2014				
Main Expenditure Category Level	11	2	9	0
Sub Group Level	26	4	20	2
Section Level	30	8	21	1
Nov 2015 compared to Oct 2015				
Main Expenditure Category Level	11	0	5	6
Sub Group Level	26	4	9	13
Section Level	30	10	8	12

Table 3 outlines the distribution of price movements for four inflation periods:

Nov 2015 compared to Nov 2014
 Oct 2015 compared to Oct 2014
 Sep 2015 compared to Sep 2014
 Nov 2015 compared to Oct 2015

In Nov 2015 compared to Nov 2014, 3 of the 11 main expenditure categories recorded price decreases, while 8 recorded price increases. 19 of the 26 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 0 of the 11 main expenditure categories recorded no price changes.
