

CONSUMER PRICE INDEX

Release date: 23 Nov 2020

Oct 2020 Inflation Rate 1.3%

Headline Inflation: Year-on-Year Changes for Oct 2020 compared to Oct 2019

The All Items Consumer Price Index increased by 1.3% for the twelve months ending October 2020.

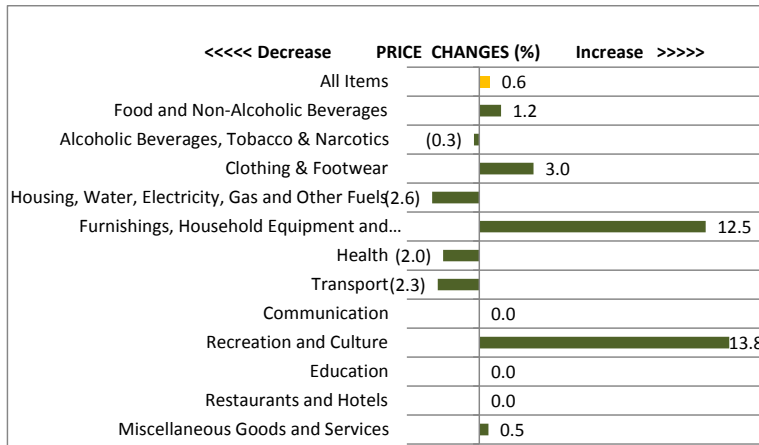

The Food index increased 3.5% over the last twelve months. Eight of the nine major supermarket food indexes rose over the period. The increases range from 0.1% (Meat and Meat Products) to 8.1% (Vegetables). The increase in the Food index is the largest twelve months increase since March 2020. Six of the eight indexes reported increases above 1.0%. The Index for Milk, Cheese and Eggs rose 4.9%, Fish and Seafood (+4.1%) and the index for Fruit increased by 3.0%.

The index for Food Products N.E.C rose 2.9% while the index for Bread and Cereals increased by 1.0%.

The index for Non-Alcoholic Beverages increased 2.5% resulting from average price increases for Soft Drinks and Concentrates and Fruit and Vegetable Juices.

The index for All Items Less Food and Energy increased 2.1% over the past twelve months. The index for Furnishings, Household Equipment and Routine Household Maintenance rose 16.7%. The index for Miscellaneous Goods and Services increased by 5.3%. The index for Alcoholic Beverages, Tobacco and Narcotics increased by 3.0%. In contrast, there were declines in the indexes for Housing, Water, Electricity, Gas and Other Fuels (-2.6) and Clothing and Footwear (-3.3).

Month-to-Month Changes for Oct 2020 compared to Sep 2020

The monthly Consumer Price Index rose 0.6% for the month ending October 2020.

The Food index increased by 1.5% over the one month span. The index rose as seven of the major supermarket store indexes increased over the same period.

The index for Fish and Seafood rose 6.4%, a larger increase than the 1.6% rise in September. The sub categories of Fresh Chilled and or Frozen Fish and Seafood rose 19.7% and the sub category Preserved or Processed Fish and Seafood increased by 1.6%. The Index for Milk, Cheese and Eggs increased by 3.1%. The index for Fruit increased by 2.5% as the index for Fresh and Chilled Fruits recorded an increase of 6.8%. The index for Vegetables rose 1.7% following a marginal 0.1% increase in the previous month.

The Index for All Items Less Food and Energy increased by 1.7% after declining 1.8% in September. The index for Recreation and Culture which fell 8.6% in July rose 13.8% in October. The index for Furnishings, Household Equipment and Routine Household Maintenance increased by 12.5%.

Table 1: Examples of Goods and Services in the 2019-based Consumer Shopping Basket

Main Expenditure Categories	No. of Items	Example of Goods and Services for which prices are collected to calculate the inflation rate	Frequency of price collection
Food and Non Alcoholic Beverages	192	<i>Bread, cereals, milk, coffee, juices, meats, fruits,vegetables, sugar, water</i>	Monthly
Alcoholic Beverages, Tobacco & Narcotics	13	<i>Beer, stout, rum, vodka, wine,whisky,cigarettes</i>	Monthly
Clothing and Footwear	72	<i>Men’s pants, boys shorts, women’s dresses, brassieres, underwear, laundry services,footwear</i>	Quarterly
Housing, Water, Electricity, Gas and Other Fuels	13	<i>Rent paid, repairs and maintenance, water supply, electricity, LPG cooking gas</i>	Monthly,Quarterly
Furnishings, Household Equipment and Routine Household	82	<i>Appliances, sofas, mattress, dressing table, glassware; detergent</i>	Quarterly
Health	8	<i>doctor’s bill, medicines,vitamins</i>	Monthly
Transport	27	<i>cars, batteries, license, gasoline, tyres, airline fares,</i>	Monthly, Quarterly
Communication	6	<i>Cell phones, cell phone rates, internet rates</i>	Quarterly
Recreation and Culture	14	<i>Televisions, radio, computers, cable tv services, movie cinemas tickets</i>	Quarterly
Education	3	<i>School fees, exam fees</i>	Annual
Restaurants and Hotels	8	<i>Meal lunches, burgers, fried chicken, pizza, roti, accommodation</i>	Quarterly
Miscellaneous Goods and Services	28	<i>Hair cuts, manicure pedicure, saloons, body lotion, toothpaste, shampoo, jewellery</i>	Monthly, Quarterly
Total number of goods and services in the basket	466	Prices are collected from the second Monday to the second Thursday of every month	
¹ <i>Outlets refer to the businesses where prices are collected (e.g supermarkets). The same outlets are used for Food and Non-Alcoholic Beverages, Alcoholic Beverages, Tobacco & Narcotics and some Miscellaneous Goods and Services</i>			

What is the Consumer Price Index?

The Consumer Price Index (CPI) is a statistical indicator of changes in the general level of prices of consumer goods and services purchased by private households. The CPI measures price movements of a fixed quality and quantity of goods and services. The mix of these consumer goods and services comprising the CPI are referred to as a “shopping basket.” In constructing this “shopping basket”, the selected goods and services are organised first by commodity type. They are then divided into sections, then sub-groups and then assigned to a major expenditure category. The Antigua and Barbuda CPI has 26 sections, 30 sub-groups and 11 major categories.

What is the Base Period?

The base period (base year) is the time period that is used as a reference point for measuring the price change of goods and services. The base period for the Antigua and Barbuda CPI is January 2019.

The base period index is represented as 100.0. (Usually presented as 2001 = 100). So for instance, if the April 2010 CPI for chicken legs is 167.1, then it means that the price for chicken legs has gone up by 67.1% since 2001. Similarly, if the January 2010 CPI for bread is 93.1, then the price of bread has dropped by 6.9% compared to its price in 2001.

What is Inflation?

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given amount of money. There are three expressions of price changes:

- year-on-year (*the inflation rate*)
- month-to-month
- annual average (or annualised average)

The annual average CPI is derived by summing the CPI for each month of the year and dividing by 12.

What are Weights?

Weights can be considered in the same way we would express how much we spend on various goods and services each month. Just like a monthly salary can be broken down as 20% on rent, 25% food, 15% mortgage, 10% on utilities and so on, the CPI weights are a collective expression of how households would generally spend their monthly income on goods and services.

The weights for this series of CPI were drawn from a survey of a sample of households in 2006 (the base period). Each household was asked to keep a record of their expenditure for one month. Once completed, the expenditures were added to determine the pattern. This pattern is what is referred to as the weights.

The current weights assume that each month, households would spend the most on *Accommodation* (218.3) followed by *Food* (214.2) and *Transportation and Communication* (153.5). Households would also spend the least on *Alcoholic Drink and Tobacco* (1.6).

Index Points Contribution

Contribution of each expenditure category (category weight over All Items weight) to the All Items index points change.

Year-on-Year	$\frac{\text{June 2010 CPI} - \text{June 2009 CPI}}{\text{June 2009 CPI}} \times 100$
Month-to-Month Price Changes	$\frac{\text{June 2010 CPI} - \text{May 2010 CPI}}{\text{May 2010 CPI}} \times 100$
Annualised Inflation Rate	$\frac{\text{Average 2010 CPI} - \text{Average 2009 CPI}}{\text{Average 2009 CPI}} \times 100$

The compilation of the CPI and the calculation of the inflation rate involve the processing of hundreds of price quotations. The Statistics Division wishes to acknowledge the cooperation of the business community in supplying the required prices and accommodating the Statistical Officers on their premises.

	All Items less Food and Energy	102.63	100.90	100.49	2.1	1.7

Table 3: Distribution of Changes in the Inflation Rate

	No. of categories	No. of Decreases	No. of Increases	No. of No Changes
Oct 2020 compared to Oct 2019				
Main Expenditure Level	12	5	6	1
Sub Group Level	23	5	13	5
Section Level*	12	3	9	0
Sep 2020 compared to Sep 2019				
Main Expenditure Category Level	12	5	6	1
Sub Group Level	23	9	9	5
Section Level*	12	6	6	0
Oct 2020 compared to Sep 2020				
Main Expenditure Level	12	4	5	3
Sub Group Level	23	7	9	7
Section Level*	12	3	9	0

*Section Level is 33 Sections however for comparative purposes between 2020 and 2019 data we are utilizing 12 section levels

Table 3 outlines the distribution of price movements for four inflation periods:

- Oct 2020 compared to Oct 2019
- Sep 2020 compared to Sep 2019
- Oct 2020 compared to Sep 2020

In Oct 2020 compared to Oct 2019, 5 of the 12 main expenditure categories recorded price decreases, while 6 recorded price increases. 13 of the 23 sub-group levels also recorded price increases for some of the items that fall in that level. These collective increases and decreases would account for the magnitude and direction of the current inflation rate. 1 of the 12 main expenditure categories recorded no price changes.
